POLYPROPYLENE ROPE

## ABOUT POLYGOLD ROPES

POLYGOLD ROPES are made from Danline Yarn Technology that ensures these ropes stand out from the rest in terms of breaking strength and service life. POLYGOLD Ropes are known for their excellent outdoor service life and are flexible and easy to use.

- The materials used in rope manufacture can create fibres with varying strength, stretch, ductility and density.
- Sizes range from 6mm diameter to 80mm diameter.
- Using high speed & advance level machinery.

**LOW ELONGATION**

**BETTER KNOT ABILITY**

**HIGH ABRASION RESISTANCE**

**HIGH STRENGTH AT LOWER WEIGHTS**

**HIGHLY RESISTANT TO ACIDS & ALKALIES**

**FLOATS IN WATER, DOES NOT ABSORB WATER**

**PRODUCT SPECIFICATION**

CIR (INCH)	DIA(MM)	WEIGHT (220 MTR) (KG)
0.50	4	1.7
0.75	6	3.5
1.00	8	6.5
1.25	10	10.5
1.50	12	14.5
1.75	14	20.00
2.00	16	25.00
2.25	18	33.00
2.50	20	40.00
2.75	22	49.00
3.00	24	58.00
3.25	26	68.00
3.50	28	80.00
3.75	30	91.00
4.00	32	104.00
4.50	36	130.00
5.00	40	160.00

**Applications of POLYGOLD Ropes**

- Special quality made for Submersible Pump, useful for agriculture.
- Industrial applications include material handling operations, used extensively in transportation and warehousing.
- Applications in fish net making, domestic uses and sports nets.

**Salient Features**

- UV Stabilized POLYGOLD Ropes for long lasting service life.
- Non-Corrosive, Light weight & immune to extreme atmospheric conditions.
- No water absorption and inert to chemicals.
- Excellent shock absorption and high tensile strength.
